PROFILE SUMMARY

Passionate Software Engineer having 1 year experience with expertise in backend development using Laravel, Django and frontend technologies React.js skilled in API development, secure authentication, and cross-functional collaboration.

EDUCATION

RGPV Bhopal   SKITM, Indore

B.Tech in Computer Science Engineering (8.26 CGPA)   *Aug 2019 – May 2023*

EXPERIENCE

Zehntech Technologies Pvt.Ltd., Indore (Full time, On-Site)   May 2024 – Present
- Developed RESTful APIs using the Laravel framework, ensuring high performance and scalability of backend services.
- Contributed to the GyataGPT AI project by migrating the backend to Django and developing robust APIs to implement new features.
- Implemented JWT and Passport for secure authentication and efficient authorization. Engineered automated email notifications to enhance application interactivity and user engagement.

Ninebit Computing Pvt.Ltd., Indore (Paid Internship- On-site)   Jan 2024 – March 2024
- Contributed to a migration project, modernized the application's frontend using React.js.
- Developed user interfaces using React.js enhanced UI features and implemented dashboard, Utilized various libraries for efficient data fetching.
- Collaborated with team members using version control systems such as Git to organize modifications in assigned tasks.

PROJECTS

GyataGPT AI| (Laravel, Django, Angular, Mysql)   May 2024 - Present
- GyataGPT AI is a cloud-native platform that enables enterprises to create intelligent chatbots and virtual assistants. It integrates seamlessly with over 10 data sources like shopify, Wordpress allowing businesses to enhance user engagement by providing real-time, context-aware interactions on their applications.
- **Backend Development:** Maintained the backend infrastructure using Laravel, ensuring robust and scalable server-side operations.
- **API Integration:** Developed and integrated APIs in laravel to connect with various data sources, notably implementing connectors to facilitate seamless data retrieval and interaction.
- **Migration to Django Framework**: Migrated the project to Django, redesigning APIs using Django Rest Framework and maintain database architecture using Mysql for better performance.
- **Cross-Functional Collaboration:** Worked closely with frontend developers and AI/ML teams to ensure cohesive development and integration across the platform, contributing to a unified and efficient system architecture.

Blood Care | React.js, Node.js, Mysql   Sept 2021 – Nov 2021
- Developed a comprehensive web application for managing blood-related information, including donor details, blood groups, blood banks, and stock levels.
- Developed an emergency donor matching feature and an appreciation certificate system, with a secure admin interface for authorized management.

TECHNICAL SKILLS

Languages: C++, Core Java, python
Frontend: HTML & CSS, JS, React.js
Backend: Laravel, Django
Database: Mysql

Achievements

- Recognized for outstanding performance and contribution to the Blood Care project during academic studies.
- Ranked in the top 10 in Class 10 & 12 at Takshshila H.S School, Indore, 2017 & 2019.

Personality Positives

Innovative, Creative, Determind.
