

AAYUSHI JAIN

Software Engineer | Gen AI · Agentic AI · MERN · FastAPI · Django · AI-Driven Platforms

Indore (M.P), India | +91 7024435550 | jain.aayushi276@gmail.com | [LinkedIn](#) | [GitHub](#) | [LeetCode](#)

PROFESSIONAL SUMMARY

Software Engineer with 2 years of experience building scalable web applications and AI-driven platforms using Python, Django, DRF, FastAPI, Node.js, React.js, GenAI, and Agentic AI. Experienced in developing REST APIs, backend services, asynchronous workflows, and AI-powered solutions using RAG, LLMs, and agentic workflows, improving AI response accuracy by 20% through clean API architecture.

TECHNICAL SKILLS

Languages: Python, JavaScript, C++, SQL

Backend & Libraries: Django, Django REST Framework (DRF), FastAPI, Node.js, Express.js, Celery, Redis

Frontend: React.js, TypeScript, HTML, CSS, Tailwind CSS

DevOps & Tools: Docker, AWS (S3, EC2), Postman, Swagger, Git, GitHub, Claude, Cursor

Architecture & Databases: Microservices, REST, Multi-tenant, MySQL, MongoDB

AI / GenAI: Gen AI, LLM, RAG, Embeddings, AI Agents, Llama 3.1, Prompt Engineering, Milvus, LangChain, LangGraph

PROFESSIONAL EXPERIENCE

Zehntech Technologies Pvt. Limited, Indore — Junior Software Engineer

May 2024 – Mar 2026

- Designed and delivered enterprise Python applications using Django, DRF, and Express.js integrating Shopify, WordPress APIs, and AI/LLM workflows across SaaS platforms — reducing development time by 20% while owning back-end architecture and API contracts.
- Created and maintained 50+ production-grade APIs using FastAPI, Express.js and DRF, integrating microservice backends across multiple SaaS products and reducing integration time by 20%.
- Contributed to AI-driven SaaS workflows by integrating LLM-powered features with Python backend services and REST APIs, enabling intelligent data processing and chatbot-related functionality.
- Optimized database queries and APIs in multi-tenant systems, improving response time by 30% and supporting 3x user scalability.

PROJECTS

GyataGPT AI | Python, Django, DRF, Pandas, Celery, Redis, BGEM3, Docker, React.js, MySQL

- Engineered a cloud-based AI chatbot platform enabling businesses to create intelligent virtual assistants for websites, Shopify stores, and external knowledge sources, delivering automated and context-aware customer interactions.
- Integrated 8+ data sources, including Shopify, WordPress, and website connectors, enabling businesses to train chatbots using diverse data through well-defined REST APIs.
- Refined AI response workflows by evaluating outputs, improving contextual accuracy by 20% across chatbot interactions.

TripMate AI Travel Assistant | Python, LLM, Agentic AI, RAG, LangChain, LangGraph, Tool Calling, Ollama, Llama 3.1

- Engineered an agentic AI travel assistant enabling dynamic multi-tool reasoning across destination knowledge and live weather data, delivering context-aware, real-time travel recommendations.
- Integrated 2 LLM-callable tools, including a destination-knowledge RAG search and a weather forecast lookup, enabling multi-source query resolution across a 4-city, 20-category knowledge base through dynamic tool orchestration.
- Validated agent reliability with 21 unit/integration tests covering tool selection, multi-tool execution, and error handling.

MyLiveCart | Node.js, Express.js, React.js, MongoDB, HTML, CSS, JavaScript

- Built a multi-vendor marketplace platform supporting 3 user roles — Customer, Seller, and Admin — enabling sellers to create online stores and customers to discover and purchase products through a unified ecosystem.
- Designed and maintained 40+ API endpoints using Express.js covering user management, seller onboarding, product catalog, payments, and analytics.
- Spearheaded SuperAdmin modules across both React.js frontend and backend, providing a unified platform for user management, seller onboarding, store verification, payouts, feedback, analytics, and overall marketplace administration.

ACHIEVEMENTS

- Solved 120+ Data Structures & Algorithms problems on platforms like LeetCode and GFG — leetcode.com/u/_aayushi22

EDUCATION

Bachelor of Technology – Computer Science & Engineering

Aug 2019 – May 2023

Shivajirao Kadam Institute of Technology and Management, Indore | CGPA: 8.26
